Profile Summary

- Full-stack developer with a strong focus on **front-end and back-end technologies**, experienced in building scalable, high-performance web applications using **React.js, Java, Spring Boot**, and modern development frame works.
- Skilled in optimizing web applications for **performance** and **responsiveness**, with a focus on user-centric designs.
- Proven ability to collaborate effectively in team environments, manage time efficiently, and troubleshoot technical challenges.
- Expertise in **React.js, Node.js, MongoDB**, and using **Agile methodologies** to deliver high-quality projects on time.

Technical Skills

- | | | | |
|-------------|--------------|-----------|--------------|
| • React.js | • HTML | • CSS | • JavaScript |
| • Bootstrap | • Java | • MongoDB | • SQL |
| • Node.js | • Express.js | • Python | • Adv.Java |

Experience

Coding Raja Technologies – Python Programming Intern

Feb 2024 – Mar 2024

- Developed Python programs and mini projects using core Python concepts.
- Gained hands-on experience in debugging, file handling, and problem-solving.

AvensiQ Technologies LLP – Database Administrator Intern

Dec 2025 – Feb 2026

- Managed MySQL databases, executed SQL queries, and maintained data accuracy.
- Performed database backup, recovery, and basic performance monitoring.

Projects

- **Hospital Management System** | *Java, MySQL, JDBC, Swing* | **Jul 2025**
 - Developed a hospital management application to manage patients, doctors, appointments, billing, and medical records.
- **Banking Fraud Detection System** | *Python, Machine Learning, Pandas, Scikit-learn* | **Jun 2026**
 - A machine learning project that detects fraudulent banking transactions using Python and data analysis techniques.
- **HiTeckKart – E-Commerce Website** | *Spring Boot, React.js, MySQL, REST API* | **Jul 2026**
 - Developed a full-stack e-commerce platform with secure user authentication and product management.
- **Face Recognition System** | *Python, OpenCV, Face Recognition, NumPy* | **Aug 2026**
 - Developed a face recognition system for real-time face detection and identification using OpenCV.
 - Implemented image processing and facial feature extraction for accurate recognition.

Education

Pravara Rural College of Engineering, Loni (SPPU)

Graduation: 2027

Bachelor of Engineering (B.E.)-E&TC

Extracurricular / Certifications

Full Stack Java Development – SEED Infotech

Dec 2024 – Jun 2025

- Completed hands-on training in Java, Advanced Java, Spring Boot, MySQL, React.js, and Full Stack Web Development.
- Developed real-world projects while gaining practical experience in frontend, backend, and database technologies.

Certifications

- Generative AI Mastermind – Out skill
- HTML5 – The Language – Infosys Springboard
- VLSI Design with AI: Basics to Advanced – Internshala Trainings (NSDC)
- Arduino Training – IIT Bombay Spoken Tutorial
